

CHILD DEATH INVESTIGATIONS: A PRACTICAL APPROACH

DECEMBER 7-9, 2026
WEST PIEDMONT HIGHER EDUCATION CENTER
HOSTED BY: PIEDMONT REGIONAL CRIMINAL JUSTICE
TRAINING ACADEMY
191 FAYETTE STREET
MARTINSVILLE, VA
8AM-4PM

Join our intensive 3-day course designed to equip professionals
with the skills and knowledge to navigate the complexities of
child death investigations.

WHAT YOU'LL GAIN:

- Confidence in Complex Cases

Master a structured, repeatable process to approach each case with clarity and assurance.

- Enhanced Investigative Skills

Learn to identify critical evidence, conduct effective interviews, and collaborate seamlessly with multidisciplinary teams.

- Expertise in Specialized Areas

Delve into topics like Sudden Infant Death Syndrome (SIDS), Sudden Unexplained Infant Death (SUID), and abusive head trauma

- Legal and Ethical Proficiency

Understand the legal nuances and ethical considerations unique to child death cases.

COURSE HIGHLIGHTS:

- Doll Re-enactments

Training to reconstruct events and gather crucial insights.

- Timeline Construction

Techniques to determine the roles of caregivers during critical periods.

- Forensic Scene Processing

Best practices for evidence identification and recovery.

- Collaboration with Medical Examiners

Work closely with professionals to determine cause and manner of death

Who Should Attend:

Law enforcement officers, medical examiners, child protective services personnel, prosecutors, and other professionals involved in child death investigations.
